

TinGuard Coils

Premier Tin-Lined Copper Tubing Supplier

PJ Tube is the exclusive supplier of corrosion resistant TinGuard copper tubing. This unique tube is tin-lined at PJ Tube utilizing one of a kind equipment and an innovative process for applying tin. Our coils offer beneficial thermal transfer properties and TinGuard offers corrosion resistance to damaging elements. TinGuard is particularly valuable in natural gas applications, or any corrosive environment where bare copper requires extra protection. Our TinGuard copper tubing, made from seamless CDA-122 DHP copper, is dead soft tempered for easy workability and can be manufactured with tin-coated ODs, IDs or both. Custom or standard 50-ft. lengths, individually packaged and boxed are available for quick shipping.

Part Number	Size	Outside Diameter	Wall Thickness	Weight
J0397725003050	.250"OD X .030"W	1/4"	.030"	4 lbs
J0397731203050	.3125"OD X .032"W	5/16"	.032"	5.5 lbs
J0397737503050	.375"OD X .032"W	3/8"	.032"	6.7 lbs
J0397750003050	.500"OD X .032"W	1/2"	.032"	9.1 lbs
J0397762503050	.625"OD X .035"W	5/8"	.035"	12.6 lbs
